## **DRUM SCREEN SM 620.2**

## **Applications**

Like all Doppstadt SM machines the SM 620.2 happily accepts waste and raw materials of all types for screening. It is equally suitable for compost, earths, light construction waste, wood, biomass, sand, and gravel.

## **Advantages**

- Fast changing system for the screening unit, operation with trommel or 6 m³ star screen insert possible
- Many options to meet various requirements
- Load sensing control for optimized screening result
- Large 5,0 m³ feeding hopper with low feeding height of 2,9 m
- Economic fuel consumption, low operational costs, high troughput capacity
- Extensive standard safety equipment (e.g. intrusion protection, emergency stop, machine monitoring)
- European road approval
- Three additional hydraulic connections for operation of various optional equimpment
